A GALE OF **SPECULATION**

Net Changes Little Indication of the Price Movement.

BEAR INROAD WAS FIERCE

Unexpected Increase in Reserves Shown by Bank Statement Caused Rush For Cover and Violent Rally.

(By Associated Press.)

NEW YORK, March 28,—The stock market was swept by a speculative gale durin gthe two hours' session to-day, of which the quiet closing and the small not changes in prices give little indication. The bear party made a flerce onsanught on prices after an unsteady opening and succeeded in dislodeling some heavy blocks of stock which were in a vulnerable position by reason of calls for additional margins and by stop-loss orders placed below the market.

The unexpected increase in reserves disclosed by the bank glatement caused anxiety on the part of the bears and they bought to cover in law urgent manner, causing a violant raly in prices. There was a notable quating down after the principal demand from the bears had been satisfied, and the market wavered again, but closed about steady, although below the top prices of the rally.

There was little spelific nows to axplain the testing as there was yeaterday, and its seemed to be based upon discouragment over the general apathy of the speculation and the many disappointments of hopes of a rise in prices. There was some show of support in New Rork Control and Pennsylvania, and the greatest scaleness shifted to the Pacifics and St. Peal, Manhattan wa supported, and chigh valley, following that for Erie, which was published yesterday.

The only explanation offered for the higher reserves shown by the banks, in face of an apparent decrease, judged by the known movements of monoy, was the working of the average system of computation. A daily increase in cash served to increase the effect upon the weekly average. The passing of the April late one offected in stocks yesterday, and to-day is also expected to clear the situation of some extent.

The market for bonds has been dull and the movement of prices irregular.

	the pressure upon the market than there was yesterday. Renewed liquidation was, however, evident in nearly every quarter and the market seemed to be wholly without support, save that arising from the occasional covering of short contracts. There seemed to be a vague, but fairly general, notion that the pending decision in the suit against the Northern Securities Company in the United States Circuit Court would be decided against the commany and at all events, the common belief in this respect was a factor in the speculation. At the opening of business a fairly steady tone was evident, chiefly because American stocks were strong in the London market and because of the absence of any direct explanation of yesterday's decline. Fresh liquidation soon appeared, and a number of severe losses were shown. Notably weak features of the railway list were Southern Pacific. Union Pacific Atchison, St Paul, the Wabash issues and Canadian Pacific, Manhattan also broke badly in the early dealings, but in that evident.	done during the day by what are usual considered Keene brokers. The loan account was curtailed to the extent of \$6,98,000 and deposits fell away \$6,423,000. In consequence, surplus reserves increased \$13,100,000, and the banks now hold \$5,250,000 in excess of the legal requirements. At the corresponding period of last year the banks surplus cash holdings amounted to \$6,905,000.

Pressure Upon Pennsylvania and Nor-

Pressure Upon Pennsylvania and Norfolk & Western.

(Special of The Times-Dispatch.)

NEW YORK, March 28.—The opening of the stock market showed a renewal of pressure in places, which more than offset the better range of prices from London and that the belief that the short interest was getting more considerable. The selling in the high-priced slocks was something of the same character as that of the previous day, and the decline then had evidently brought in orders to sell weakly margined stocks.

There was a distinct and rather a serious development of weakness in the early trading, plainly taking its genesis from the stocks directly interested in the Keene-Harriman fight. The general market sympathized, but only in places, as the irsction stocks were quite firm, and many of the railroad issues merely made trilling declines.

In the last hour of trading the market developed strength before the publication of the bank statement, and made a substantial raily in stocks which has been weak early, while many own was full of pumors, but the bank statement was generally considered a good one and encouraged a fairly firm tone.

SOUTHERN PACIFIC: Southern Poelfo.

Richmond, Va., March 28, 1903, SALES.

UNION PACIFIC:
Union Pacific seemed to be about the best supported stocks, and was one of the few issues in which it was possible to trace the more important banking interests of the street. Union Pacific was naturally weak and was hammered in retallation for the pressure on Southern Pacific. The selling seemed to come from the Keene brokers, who managed to break through supporting orders and caught a number of stops.

ATCHISON HELD WELL:
Atchison hold well and there is reason to believe that the most important independent holding in it is secured in such a way that it would in no circumstance come upon the market.

READING HELPED:
Reading was belied a little by the fine showing of the February statement, and the anthrackes generally seemed to be rather sold out. There was not much disposition, however, to buy them, in view of the well-held belief that February would be about the last of the big earnings inview of the lighter demand for coal. evident.

Amalgamated Copper, the United States Steel shares and the other industrial and miscellaneous stocks moved in line with the rallway list. There was less than the usual amount of discussion with regard to the probabilities of the weekly bank statement, inasmuch as a rather negative showing seemed to be commonly looked for.

PENNA. & NORFOLK: Renewed pressure in Pennsylvania and Norfolk and Western was ascribed to Philadelphia selling.

STEEL PRESSURE:

The pressure in Steel preferred was from brokers who have recently acted for the Keene interest, and seemed to be directed towards stimulating public liquidation. It came out. The failure of the bond issue, however, has caused some conservative solling in the recent past.

A FEW FEATURES:
Very fair trade support was reported in Amalgamated Copper. Lower Wall Street was a buyer of Sugar in moderate quantity. Pool buying orders in Rock Island were understood to have been given out, but were hardly needed, as the stock acted well.

Stocks!

How about those stocks you have been holding? Didn't I tell you to cut loose, and go short? This market has just started to break, and I again tell you to

break, and I again tell you to close your longs.

This office has beat New York to a frazzle, and while others have been making heavy deposits to New York on calls, we have been getting checks daily!

I now predict a big slump in stock securities, and, while prices are apparently low, they will look high in several weeks. As a parting shot, I again advise you to close your long stock.
